

**MAISON
VERMEULEN**

SCOPE OF THE WORKSHOP

Maison Vermeulen

is one of the youngest and fastest growing
featherwork atelier

created 10 years ago

by Julien Vermeulen,
awarded Master Artisan in 2022,

now also mastering
the art of **knitting** and loom **weaving**.

FIELDS

Fashion - Maison Vermeulen has been collaborating with all major Fashion Houses for shows, bespoke VIC creations, RTW and accessories collections and still is...

Interior Design - Haute Couture for interiors. A newly launched activity, giving rise to one-of-a-kind furniture pieces and bespoke wall coverings.

Art - Since its Intelligence de la Main distinction in 2018, art has served as a catalyst to reimagine the limits of this ancient savoir-faire.

Watchmaking - Embracing the challenges of the infinitely small has given rise to remarkable collaborations.

Merchandising - Elevate our clients' creations by unveiling the story that transcends the object itself.

KEY STRENGTH

Made to Order - A word, an idea, a reference, or an inspiration – that's all it takes for us to begin creating a bespoke feather sample, a bespoke fabric on the loom or behind our knitting machine

Archives - a library of over 200 samples at hand to inspire your studio and illustrate of our various techniques available on request in online galleries

In House Lab- In the development phase the atelier is able to assume any part of the creative process as well as relying on a network of experts (materials suppliers, dying process, transport, ...)

Team - A team of 5 full time artisans each one graduated from the highest degree possible in featherwork, embroidery or loom weaving. When needed Maison Vermeulen is able to quickly gather a team of well trained freelancers.

Fluidity - Julien is involved himself directly with the client from the brief to the final delivery, ensuring efficiency and consistency

VALUES

Surprise - creations are driven by Julien Vermeulen very peculiar artistic vision

Experiment - Maison Vermeulen is always questioning his technique to push the boundaries of his work to better serve his clients

Master - excellence drives every piece of work hand made in the atelier

Deliver - everything possible is made in order to achieve our client's goal whatever the efforts needed (short timing, rare competencies, difficult sourcing,...)

Scale - whatever the scale of the project Maison Vermeulen is able to deliver with compliance thanks to its network of high profile artisans

Care - Maison Vermeulen is about to set the first ever 100% French-based supply chain, enabling traceability from the bird to the final result. (Launch Summer 2024)
